Dhruv

I want to relay a message that I received today during our Installation Project Review Meeting. Attendees at this meeting are USACE, TYAD Directorate's, and User representatives. During my briefing of the Bldg 2, Bays 5&6 project, the DPW Director stated that your project has been receiving positive comments from all upper management staff that have toured the site. This is based on the progress and quality of your work. They hope that Benaka continues to bid and win future projects at the depot.

I told them that your professionalism has made it my pleasure to work with Benaka and stated that the Benaka management team of you, Chris, Bob, Vinnie and the support of Mr. Manjunath are the reason for your success.

Congratulations

Larry
